end of your no fee chequing account 0045730793 information

Please note

This statement includes all entries available at the time of processing.

Please review your statement. If you have any questions about a transaction on your statement, please contact us anytime. For Personal Lines of Credit, if you believe there's an error on your statement, you must contact us within 30 days of the statement date. For savings accounts, if you believe there's an error on your statement, you must contact us within 90 days of any transaction date (or the date the transaction would have occurred). To review the terms and conditions that apply to your statement, please refer to the "Simplii Financial Products and Services Agreement".

**Interest Charges** - Interest (including interest on charges and insurance premiums, if applicable) is calculated on the daily closing balance of your account and accrues from the date a transaction is made (i.e., the "eff. date"). The "trans. date" is the date when the transaction was posted to your account and may vary from the "eff. date".

**Monthly Interest Calculation** - Take the account balance at the end of each day, multiply it by the interest rate applicable on that specific date, and divide the result by 365. The total monthly interest is calculated by adding the interest amounts for each day within the statement period. On the statement period end date, all accrued interest is posted to your account. For Lines of Credit, unpaid interest will compound until all indebtedness is repaid.

statement period: April 29, 2022 - May 31, 2022  
statement date: May 31, 2022  
account number: [REDACTED]

The following are examples of how interest is charged on a \$1,000 balance outstanding for a 30-day month:

| Interest Rate | Monthly Interest Calculation | Interest Rate | Monthly Interest Calculation |
|---------------|------------------------------|---------------|------------------------------|
| 6.00%         | \$4.93                       | 10.00%        | \$8.22                       |
| 7.00%         | \$5.75                       | 11.00%        | \$9.04                       |
| 8.00%         | \$6.58                       | 12.00%        | \$9.86                       |
| 9.00%         | \$7.40                       | 13.00%        | \$10.69                      |

Even in a leap year, interest is calculated by multiplying the then-outstanding principal amount by the current interest rate in effect at the applicable time, dividing the product by 365 and multiplying the result by the number of days in the payment period during which such current interest rate was chargeable.
